

FROM THE TOP...

Well, Spring is well and truly over and the Construction Industry continues to bloom. Weirs have just completed a large-scale capital expenditure programme that has seen the complete renewal of our fleet of vehicles and specialist plant. Our Investor in People accreditation has also been audited and renewed.

Good people, well trained, state-of-the art equipment and industry leading materials allow us to deliver quality work, reliable service and full customer satisfaction.

I hope you enjoy reading our summer newsletter. Should you wish to discuss any of the issues or projects, my contact details are below.

SUMMER 2005

INVESTOR IN PEOPLE

North Lanarkshire Council

Weirs have successfully completed a major contract delivering Safer-Surfacing and associated works for North Lanarkshire Council. It provided safe play areas in fifteen nursery schools.

The project, in excess of £150,000, included specialist work, which was delivered on budget and to a tight time schedule.

Weirs Secure Documents

We are happy to announce the introduction of a new secure document section on our website.

Included in the public area are health and safety documents, risk assessment and COSHH sheets. In addition, we can now also share sensitive documents in areas dedicated solely to your company. Register with us today at www.weirs.co.uk!

New Product CD Coming Soon

We will soon be releasing the Summer 2005 edition of our product and marketing CD-Rom.

Containing a wealth of information, advice, documents and media section, this is a CD that will prove to be a valuable resource.

To request your copy simply visit our new website or send an email to cd@weirs.co.uk.

Established in 1972, Weirs have evolved into a well respected specialist construction company.

Weirs have three main divisions and carry out the following functions...

Please contact us for a no obligation quote using the contact details are at the bottom of the page.

Tarmac

Ground works, drainage, kerbing, footpath / road construction, pothole repairs and speed bumps.

Line Marking

Thermo-plastic linemarking, hatching, parking bays and symbols. Playground game design and installation.

Safer-Surfacing

Wet pour rubber surfacing for play areas. New installations and repairs. Free design service and advice.

WIN A CASE OF WINE WITH WEIRS!

Register with the Weirs website no later than the 31st of August 2005 and you will be entered into our free competition to win a case of fine wine. Visit www.weirs.co.uk for more details.

The "Mad March" financial year spend is now a distant memory. Weirs completed a number of contracts throughout East Renfrewshire, including:

-  **Mearns Castle High School**
Earth works, drainage, slabbing, tarmac repairs and line marking
-  **Arthurlie House**
Disabled Discrimination Act adaptations, which included the formation of a new one-way system, removal of bollards and the formation of ramps.

IN THE KNOW...

TARMAC JOINT SEALING BASICS

It is the vertical joint that is sealed not the horizontal.

Joint sealant is bitumen based and can be applied either hot or cold.

Horizontal joint sealing or overbanding can cause skidding.

Bitumen macadam materials are porous and are designed to withstand frost-heave. Joint sealing is for bonding purposes only.
